

Dear Competitor,

Thank you for taking part in the 2016 South East FF Federation Rivers Qualifier.

Here is a full set of results, with overall positions worked out according to the procedure outlined in Section 16 'Scoring' of the Rules sent with the Briefing Letter, as adopted by AT TEFF, ie: *"The competitor scoring the largest number of points (morning or afternoon session) will be the overall winner, with the competitor scoring the largest number of points in the other session being placed second. Third and fourth overall places will be calculated between the two second placed competitors in both sessions on a percentage basis of the total points score in each respective session. With the same method being used to decide between the two third placed competitors to calculate the fifth and sixth overall places."*

As the rules state, whoever gets the most points is the overall winner, with the top scorer in the other session placed 2nd. To arrive at the subsequent overall positions, we estimate each competitor's points score as a percentage of the total points score in that session.
